

Metadata for HBRG taxon datasets at 14 September 2023

Dataset name: Fungi & Lichens **Dataset key:** 0 **Total records:** 45503
On R6? Yes **On NBN Gateway?** Yes **in** Fungi, Lichens & Lower plants **at** Full **resolution**

Dataset name: Algae **Dataset key:** 5 **Total records:** 699
On R6? Yes **On NBN Gateway?** Yes **in** Fungi, Lichens & Lower plants **at** Full **resolution**

Dataset name: Bryophytes & Stoneworts **Dataset key:** 10 **Total records:** 2694
On R6? Yes **On NBN Gateway?** Yes **in** Fungi, Lichens & Lower plants **at** Full **resolution**

Dataset name: Vascular plants **Dataset key:** 15 **Total records:** 27739
On R6? Yes **On NBN Gateway?** No **in** N/A **at** N/A **resolution**
All records passed to BSBI recorders.

Dataset name: Dead Marine Molluscs **Dataset key:** 17 **Total records:** 33
On R6? Yes **On NBN Gateway?** No **in** N/A **at** N/A **resolution**
For dead shells which may have been transported to the site where found.

Dataset name: Annelida and Mollusca **Dataset key:** 20 **Total records:** 5389
On R6? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full **resolution**

Dataset name: Earthworms from Peter Carp **Dataset key:** 23 **Total records:** 227
On R6? Yes **On NBN Gateway?** No **in** N/A **at** N/A **resolution**
Provided to HBRG in January 2013 by Peter Carpenter. Not to be put on NBNG at present, and only with permission.

Dataset name: Miscellaneous arthropods **Dataset key:** 25 **Total records:** 1249
On R6? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full **resolution**
Includes all arthropods not in other datasets.

Dataset name: Arachnids **Dataset key:** 30 **Total records:** 5944
On R6? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full **resolution**

Dataset name: Odonata **Dataset key:** 35 **Total records:** 7771
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**
Includes IMAG data, but Literature records extracted from Hammond (1983) and Collier (1981) without details and at 10km resolution have been omitted.

Dataset name: Odonata BDS **Dataset key:** 40 **Total records:** 11925
On R6? No **On NBN Gateway?** No **in** N/A **at** N/A **resolution**

Highland records held by BDS in September 2007. BDS will administer the complete dataset on NBN. Some old field records have been assigned to modern determiners by BDS.

Dataset name: Hemiptera **Dataset key:** 45 **Total records:** 13806
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**

Dataset name: Lepidoptera **Dataset key:** 50 **Total records:** 82251
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**

VC95 records checked by Mike Taylor, Feb 2008, and some records originally in this dataset moved to Unverified.

Dataset name: Diptera **Dataset key:** 55 **Total records:** 32394
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**

Dataset name: Hymenoptera **Dataset key:** 60 **Total records:** 29618
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**

Polistes jadwigae (an accidental import) is not in R6.

Dataset name: Richard Moore Raasay beetle **Dataset key:** 64 **Total records:** 7961
On R6? Yes **On NBN Gateway?** Yes **in** Richard Moore Raasay beetles **at** Full **resolution**

Beetle records from Raasay from Richard Moore.

Dataset name: Coleoptera **Dataset key:** 65 **Total records:** 15196
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**

Dataset name: Weevils from Adrian Fowles **Dataset key:** 66 **Total records:** 1959
On R6? Yes **On NBN Gateway?** No **in** N/A **at** N/A **resolution**

Local use only.

Dataset name: Garth Foster SCM beetles **Dataset key:** 67 **Total records:** 1252
On R6? Yes **On NBN Gateway?** No **in** N/A **at** N/A **resolution**

Garth Foster SCM data. Addition to NBNG to be considered.

Dataset name: Trichoptera from Ian Wallace **Dataset key:** 68 **Total records:** 3625
On R6? Yes **On NBN Gateway?** No **in** N/A **at** N/A **resolution**

Local use only.

Dataset name: Other Insects **Dataset key:** 69 **Total records:** 3607
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at** Full resolution
All insects not included in specific order datasets.

Dataset name: Miscellaneous invertebrates **Dataset key:** 70 **Total records:** 978
On R6? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full resolution
Any invertebrate records not included in other datasets.

Dataset name: Fish & Herptiles **Dataset key:** 75 **Total records:** 7705
On R6? Yes **On NBN Gateway?** Yes **in** Vertebrates (not Badger) **at** Full resolution
Some confidential Triturus cristatus records are not on NBN.

Dataset name: Birds **Dataset key:** 80 **Total records:** 4516
On R6? Yes **On NBN Gateway?** No **in** N/A **at** N/A resolution
All records passed to Highland bird recorders.

Dataset name: Mammals (not Badgers) **Dataset key:** 85 **Total records:** 30903
On R6? Yes **On NBN Gateway?** Yes **in** Vertebrates (not Badger) **at** Full resolution

Dataset name: Badgers **Dataset key:** 90 **Total records:** 2060
On R6? Yes **On NBN Gateway?** Yes **in** Badger **at** 10km resolution
Records given by Roger Cottis are flagged as confidential and are not on NBNG. Care should be taken not to release high resolution NGRs of sets except to appropriate enquirers.

Dataset name: Unverified **Dataset key:** 200 **Total records:** 2524
On R6? Yes **On NBN Gateway?** No **in** N/A **at** N/A resolution
Unverified records, not to be disseminated until verified.

Dataset name: Duplicates **Dataset key:** 300 **Total records:** 673
On R6? No **On NBN Gateway?** No **in** N/A **at** N/A resolution
Any duplicate records. The later of the duplicates will be placed here.

Total records in database **350201**
